

ONE-PAGE RESUME TEMPLATE

Header (Simple & Clean)

- Name
- Phone
- Email
- Location (City only)
- LinkedIn (optional)
- GitHub (optional)

- ✗ Don't add photo
- ✗ Don't add full address
- ✗ Don't add date of birth
- ✗ Don't add gender or marital status

Professional Summary (2–3 lines MAX)

Purpose: Tell interviewer *what you do* and *what you bring*.

Keep super short.

Example:

Java Developer with X years of experience in Spring Boot, Microservices, API development, database integration, and production support. Strong in debugging, performance tuning, and writing clean, maintainable code.

- ✗ Don't exceed 3 lines.

Skills (One short block)

Only include the MAIN skills you actually use.

Example:

Java • Spring Boot • Microservices • REST APIs • Kafka • SQL • JPA/Hibernate • Git • Docker
• Maven • JUnit/Mockito • AWS/Azure (if applicable)

- ✗ Don't list 30-40 skills
- ✗ Don't add "MS Word, PowerPoint" nonsense

Experience Section

For EACH job, add only these 4 items:

✓ **Company**

✓ **Role**

✓ **Duration**

✓ **4–6 bullet points (MAX)**

Each bullet must follow this format:

Action → What you built/did → Result/Impact

Example bullets:

- Built and enhanced REST APIs using Spring Boot and Microservices to solve business workflows.
- Optimized SQL queries and caching mechanisms to reduce API latency.
- Integrated services with Kafka and improved reliability of event processing.
- Resolved production issues by analyzing logs, debugging, and fixing root causes.
- Improved code quality using JUnit/Mockito, Sonar fixes, and best practices.

✗ Don't add 12–20 points per project

✗ Don't describe every tiny task

✗ Don't write paragraphs

Education (1–2 lines MAX)

Degree • College • Year

That's it.

✗ Don't add percentages unless required

✗ Don't add school details

Certifications (Optional)

Only if useful:

- AWS / Azure
- Java certifications
- Spring Boot certifications
- Kafka/Flink
- Docker/Kubernetes basics

✗ Don't dump Coursera/Udemy 15 certificates

Personal Projects (Optional but useful)

Add only if relevant (Java, Microservices, Kafka, cloud).

✗ Don't add to-do app, calculator app, or school projects

✗ Sections to REMOVE Completely:

- Hobbies
- Languages (unless applying abroad)
- Achievements (unless **1 line** and relevant)
- References
- Declaration
- Family info
- Full address
- Huge paragraphs

 FINAL CHECKLIST

Your one-page resume should have ONLY:

1. Header
2. Summary
3. Skills
4. Experience
5. Education
6. Certifications (optional)
7. Projects (optional)

Nothing else.
