

1. Tell me about a time you explained something to a teammate.

STAR Answer

S: A teammate did not understand a part of the code.

T: I had to explain it clearly so they could continue their work.

A: I showed the flow step by step, drew a small diagram, and explained how the method works.

R: They understood the logic and completed their task without any more confusion.

2. Describe a time you finished a task under pressure.

STAR Answer

S: We had a release next day, and a small bug was found.

T: I had to fix it quickly.

A: I focused only on this bug, tested the fix, and updated QA.

R: Release went on time and no issues came after that.

3. Tell me a time you learned something new for your task.

STAR Answer

S: I had to use Java Streams for a story, but I was not very confident.

T: I needed to complete the work fast.

A: I watched a small tutorial, practiced some examples, and applied it in the task.

R: The code became cleaner and I finished before the deadline.

4. Tell me about a misunderstanding with a teammate and how you solved it.

STAR Answer

S: A teammate thought I missed test cases.

T: I needed to clear the confusion.

A: I showed my test report and explained the logic calmly.

R: Misunderstanding was removed and our communication improved.

5. Describe a time you supported someone in your team.

STAR Answer

S: A new teammate was struggling with code setup.

T: I wanted to help them start quickly.

A: I sat with them, helped in setup, and explained folder structure.

R: They started working smoothly and thanked me later.

6. Tell me a time you handled feedback.

STAR Answer

S: My senior said my PR was not well structured.

T: I had to improve.

A: I listened carefully, followed the guidelines, and updated my code format.

R: My next PR was approved with no comments.

7. Describe a task you took ownership of even if it was not assigned to you.

STAR Answer

S: A log error repeated every few minutes.

T: No one was assigned to fix it.

A: I debugged the issue, found the root cause, and fixed it.

R: Logs became clean and support team was happy.

8. Tell me about a time you switched tasks suddenly.

STAR Answer

S: A production issue came during my feature work.

T: I had to stop my work and help.

A: I paused my task, fixed the urgent issue, and then continued my feature.

R: Production got stable quickly and my task was still delivered on time.

9. Describe a time you worked well in a team.

STAR Answer

S: We had a module with many small tasks.

T: We needed to finish everything in the sprint.

A: I coordinated with others, shared updates, and helped with testing.

R: We completed the full module in one sprint without delay.

10. Describe a time you avoided a conflict.

STAR Answer

S: Two teammates had different opinions on a small logic.

T: The argument was slowing work.

A: I suggested checking logs and testing both approaches.

R: We found the correct logic and the argument stopped.
